BREAK STEREOTYPES
Small people

According to the stereotypes,

Everyone says that small people are weak and that they do not see, and they are not stronger than a fly.

THIS IS WRONG !!!

I DISAGREE !!!

Small people are always insulted on their small size BUT it is not because we are Small, that we can't defend ourselves.

What Do You Think ?

Example :

Everyone say that small people have a character. Why ?
Because they don't walk on your foot.
